

SABA
UNIVERSITY
SCHOOL OF MEDICINE

Medicine. For life-changing decisions

The **Saba** Difference

Saba University School of Medicine was founded in 1992 with a bold vision: to establish an international alternative to U.S. and Canadian medical schools that would not only provide an excellent medical education and expansive career opportunities but also maintain an affordable tuition.

“I really feel that I exceeded expectations in clinicals. The standards are pretty high at Saba, particularly in comparison to other Caribbean medical schools. That’s why Saba has such a high match and success rate.”

Malika Hudani MD, Family Medicine,
Residency at All Saints Hospital, Milwaukee Wisconsin

Saba University Key Facts

Accreditations: Accredited by the Accreditation Organization of The Netherlands and Flanders (NVAO)

Intakes: Three intakes per year in September, January and May

Location: Saba, The Caribbean

Why Choose Saba University

Comparability to US medical school requirements: The US Department of Education has determined that Saba University's accreditation standards are comparable to those set by the LCME, which accredits medical education programs in the United States

Approved for US federal loans: Saba University is one of the select international medical schools to participate in US Federal Student Aid programs

Pass rates: Saba University students consistently achieve a 99% or above first-time pass rate on the USMLE Step 1 Exam

Distinguished faculty: Our faculty all hold advanced degrees and doctorates in the fields they teach in

Small class sizes: Up to 90 students admitted per class

A stunning location: Study in the heart of the Caribbean

A technologically advanced campus: Our campus boasts the latest equipment, interactive learning facilities and dedicated test center

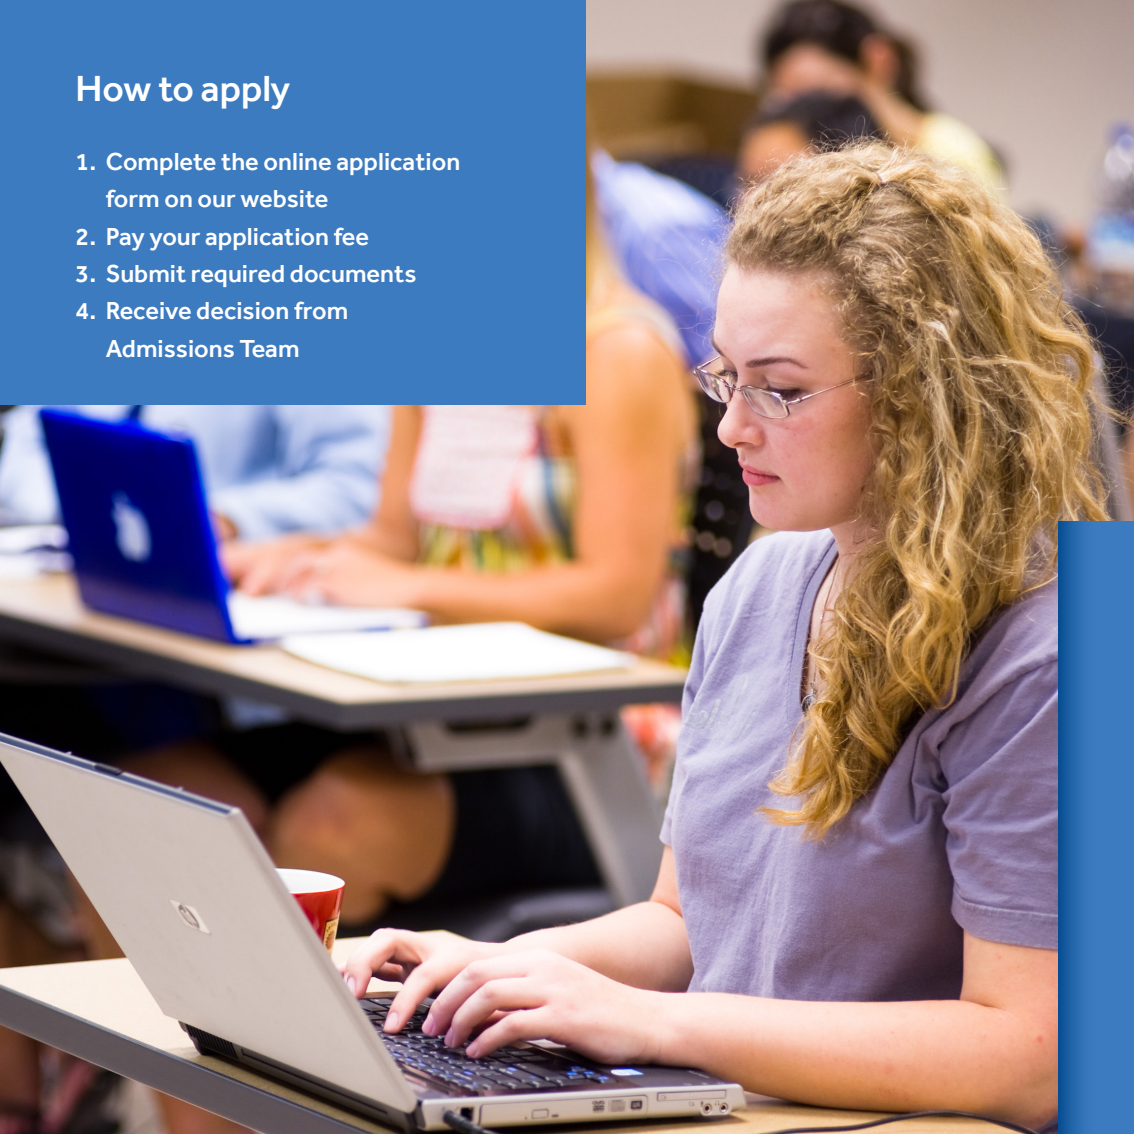

Affordable tuition: Our fees are 30-40% lower than other comparable medical schools

Excellent residency placements: Competitive programs at Yale, Johns Hopkins, University of Toronto and McGill

Practice anywhere in the US and Canada: Students are eligible to practice in all 50 states as Saba University is approved by the key states of New York, California, Florida and the provinces of Canada
